New Construction Commercial Permit Information

Revised: 4/20/20

A building permit is required prior to constructing a new commercial building. The following are guidelines and comments for obtaining a building permit.

*** Permit Applications will not be accepted until all information is received ***

Application and Drawing Procedures:

- An Application for Permit will need to be filled out and submitted to the Building Division.
- For general permit application questions for any property within the City of Geneva, please contact the Building Division at 630 262-0280 or pdf@geneva.il.us.
- For any property that is a designated Historic Landmark or located within the Geneva Historic District, approval is required by the Historic Preservation Commission (HPC) prior to obtaining a permit through the Building Division. Please contact Michael Lambert, Preservation Planner, at 630 938-4541 or mlambert@geneva.il.us for more information.
- For Mill Creek building permit questions please contact the Kane County Building Division at 630 232-3485 or keriazakosEleas@co.kane.il.us because Mill Creek properties are not under the jurisdiction of the City of Geneva.
- The contractor's and subcontractor's names, address, phone number and, if required, a copy of their licenses are to be provided when submitting the application.
- Three (3) copies of architectural stamped drawings showing construction details for the new commercial construction are to be submitted with the application including foundation, framing, electrical, mechanical, plumbing, and others as required.
- Three (3) copies of the plat of survey showing the proposed construction.
- One (1) copy of a City of Geneva Right of Way and Site plan permit.
- Three (3) copies of proposed grading plan must be submitted and approved by City of Geneva Engineering Division.
- One (1) copy of the Energy Code Compliance with Inspection Checklist (Com Check) or others if applicable.
- One copy of the Manual J calculations for HVAC if applicable.
- A PDF electronic copy of the plans is required if the plan size is larger than 11" x 17". The electronic copy must be submitted on disk or emailed to pdf@geneva.il.us.
- A Tree Preservation Review Application is required if there is a 10 inch or larger tree on the property or any size tree on adjacent public or private property within approximately 50 feet of the construction project. Please see our Tree Preservation Review Application for more details.
- Plumbing work must be done by an Illinois licensed plumber. The individual or company is to provide a Letter of Intent, on their letterhead, indicating they are conducting the work for this project. If the plumbing company is incorporated, the Letter of Intent must be stamped with their corporate seal. If the plumbing company is an LLC, then it must be notarized. Along with the Letter of Intent, please provide a copy of their Illinois State Plumbing License and Illinois State Contractor License.
- Allow a minimum of 45 working days for the permit application to be review and approved.
- Site prep work see below.

Fees: New construction Commercial permit fees are based on square footage.

- \$50.00 plan review fee.
- \$50.00 occupancy permit.
- \$0.38 per square foot for Building Division.
- Fire Department Fees:
 - \$0.03 per square foot for the first 10,000 square feet.
 - \$0.025 per square foot for 10,001 to 20,000 square feet.
 - \$0.02 per square foot for 20,001 to 40,000 square feet.
 - \$0.015 per square foot for 40,001 plus square feet.
- Plumbing fee is determined by the project scope.
- Sewer and water fees.
- Impact fees (if applicable)
- Kane County road impact fee. (contact KDOT)
- Third party plan review fees are based on actual cost + 10%.

Re-inspection fee: During the construction of the project, should any of the required inspections fail, there is a re-inspection charge. The fee is due prior to the next inspection.

- \$100.00 per re-inspection for all Building Division inspections during construction.
- \$50.00 per re-inspection for all Fire Department inspections.
- \$66.00 per plumbing re-inspection.
- \$100.00 + \$25.00 for the each inspection failed after the first failed inspection.

Site Preparations:

- Silt fence must be installed around entire lot.
- Construction sign to be posted at all times.
- Dumpster and porta john to be on site at all times.

Engineering Approval:

- A Right of Way Permit to be secured through public works.
- Proposed grading and site plan to be approved.
- Final Grading plan to be approved.

General Comments:

- **The application packet and stamped City approved plans are to be on the job site at all times.**
- A minimum of 24-hour notice is required when scheduling any inspection.
- The gap between concrete foundation walls and concrete floors are required to be polyurethane caulked, per the radon requirements in finished areas.
- All electric to meet or exceed the 2005 NEC.
- Fire-stopping is required for the top wall plate between wall and foundation and all chases with approved material.
- HVAC is to be installed per the 2006 International Mechanical Code.
- The clearance required for an electric panel with no obstructions is 36-inches in front of the panel.

Inspections – Clarification and Details:

The following is a list of inspections which may be required for your project and the approximate amount of time it will take for the inspection:

- ✓ **Footings** ¼ hour
- ✓ **Water service install** ½ hour

✓ Sewer service install	½ hour	
✓ Foundation wall pour	¼ hour	
✓ Backfill	¼ hour	
✓ Underground plumbing	½ hour	
✓ Rough plumbing	1 hour	
✓ Framing	1 hour	- Conducted at the same time as the electric inspection.
✓ Electric	1 hour	- Conducted at the same time as the framing inspection.
✓ Fire stopping	1 hour	- Conducted at the same time as the framing inspection.
✓ Electric service	½ hour	
✓ Service walk and stoops	¼ hour	
✓ HVAC	¼ hour	
✓ Insulation	¼ hour	
✓ Above ceiling	½ hour	
✓ Final plumbing	½ hour	
✓ Final	1 hour	

The following are general guidelines and details on the types of inspections that may be required for your project. For further clarification please call our office and speak with one of our Building Inspectors.

Footings

- ✓ Confirm that the soils will meet the bearing weight requirements.
- ✓ Confirm size and depth to call out on the plan set.
- ✓ Confirm steel reinforcement.

Foundation Walls

- ✓ Confirm size and depth of foundation wall.
- ✓ Confirm steel reinforcement.

Backfill

- ✓ As built survey to confirm setbacks.
- ✓ Confirm foundation water proofing.
- ✓ Remove all construction debris and garbage from along foundation wall
- ✓ Confirm insulation. (if Applicable)

Underground electric and concrete slab inspections

- ✓ Underground electric to be installed per 2005 NEC.
- ✓ Underground electric to be inspected prior to backfill.
- ✓ Confirm insulation. (if applicable)
- ✓ Confirm steel reinforcement.
- ✓ Confirm depth of concrete slab.

Frame, Electric, and Fire Stop: – Inspected at the same time. Prior to inspection....

- ✓ Maintain 30-inch side to side and 36-inches frontal clearance from electric panel cover with no obstructions in this area.
- ✓ All vertical penetrations shall be fire stopped with fire rated caulk. (no foam allowed)
- ✓ Access to any electrical boxes is required and the box cannot be buried behind any drywall.

Plumbing (Underground and Aboveground): Any plumbing that is done will need to be completed by an Illinois licensed plumber. Any deviations from the State of Illinois Plumbing Code must be approved in writing by a State inspector.

- ✓ Plumbing inspections are performed by First Inspection Services. Any questions please call 630-879-6145.

HVAC:

- ✓ Furnace and water heater to be installed per manufacturer's specifications with documentation on hand for inspection.
- ✓ Ensure that the furnace and/or water heater have proper combustion air.
- ✓ An exhaust fan to the exterior will be required if a bathroom is installed. In conditioned space un-insulated flexible duct can be used with a maximum run of 12 feet.

Insulation:

- ✓ Confirm proper insulation meeting the energy code and plan requirements.

Final:

- ✓ A final inspection is conducted when the new building has been totally completed.
- ✓ As built survey confirming building height and setbacks.
- ✓ All outlets are plug tested.
- ✓ Handrails and guards are measured for minimum and maximum requirements.
- ✓ Anything that is unique to the project is checked at this time.
- ✓ All plumbing inspections have been completed and approved.
- ✓ All re-inspection fees have been paid.
- ✓ Accessibility items are checked for compliance.
- ✓ Structural steel certificates.
- ✓ Welding certificates and reports.
- ✓ Soil and concrete reports.
- ✓ HVAC balance reports.
- ✓ HVAC commissioning of system.
- ✓ Final grading approval from the City of Geneva Engineering Department.
- ✓ Others as required, per Chapter 17 of the 2009 IBC.

Building Codes:

The following are the Building Codes the City of Geneva has adopted.

- City of Geneva Municipal Code
- 2009 Int'l Building Code w/amendments
- 2015 Int'l Mechanical Code
- 2005 Nat'l Electrical Code
- 2014 State Plumbing Code
- 2015 Int'l Residential Code w/amendments
- 2009 Int'l Fire Code w/amendments
- 2018 Int'l Energy Conservation Code
- 2015 Int'l Swimming Pool and Spa Code (ISPSC) w/amendments
- 2015 Int'l Fuel and Gas Code w/amendments
- 2010 Americans with Disabilities Act (ADA) & 2018 Illinois Accessibility Code (IAC)

General Contractor Responsibilities:

- It is the responsibility of the General Contractor to schedule ALL the required inspections. The required inspections are indicated on the plan review form, which is attached to your permit and the field copy of drawings. When calling to schedule an inspection, please have the address and the permit number available.
- Inspections shall be canceled a minimum of 24 hours before the scheduled time.
